

## ERRATUM

The legend to Figure 3 in Bayly (1999, Volume 81 Part 1) was inadvertently omitted; it was

**Figure 2.** A gnamma of the deep, pit-shaped variety on Pildappa Rock, a granite inselberg near Minnipa on the upper Eyre Peninsula, South Australia. This ovate gnamma measures 2.7 by 2.3 metres and has a depth of 70 centimetres.
